

Title: - "The CHS Research Development Grant for the Credentialing Staff and Developmental Lecturers."

Dear Colleagues,

I have the pleasure to announce that we have additional resources accessed through the Research Development Grant to assist mainly Credentialing Staff and Developmental Lecturers who are targeting to graduate in 2017. The support will be in any of the following and requests are immediately invited.

- Request for additional funds to collect data needed to complete studies
- Request to attend a conference relevant to Masters/PhD studies where findings of studies for the degree programme will be presented
- Request for teaching relief

Please note that these funds will be centrally managed by the College Research Office and clear budgets with justifications must be submitted to Mr Matasane copying me. MATASANEC@ukzn.ac.za

Also note that funding will be availed to only those that commit to complete their studies and graduate in 2017 hence the motivation must clearly state that.
