

Providing support to ensure the College is globally recognised as a high quality Health Sciences research institution

Professor Rob Slotow
DVC and Head of College (Acting)

One of the missions of the College is to facilitate and ensure high quality research, which will underpin and inform teaching, clinical practice and community service, generate credibility with stakeholders, and build global recognition for innovative solutions to health issues and problems.

In order to facilitate this, College leadership has committed strategic funding allocations for postgraduate studies, thereby investing in the existing human capacity.

It gives me great pleasure to announce the recipients of the funding in the various categories of: Masters/PhD Scholarship, Seed Funding, Teaching/Clinical Relief, Postdoctoral Scholarships and Incentive Funding for submission of a grant application to a National or international Funder.

We wish the recipients well in their research endeavours and as College leadership, we commit to providing the necessary support required to achieve success.
